

## AAOM VIDEO LIBRARY

### LECTURES SERIES - \$59

VIDEO	Name
17-01	Prolotherapy-The Foundation On Which All Regenerative Treatment is Built (Mayo Friedlis, MD)
17-21	One-Stage Cartilage Repair Using HA-BMAC Compared to Microfracture: 5 Year Follow Up (Alberto Gobbi, MD)
18-13	Orthobiologics Regulation: What You Need to Know (Chris Centeno, MD)
18-02	Direct (Cell Based) Versus Indirect (Matrix) Effects of Cellular Therapy (David Harshfield, MD)
18-12	Is It Neck Pain or Is It Shoulder Pain? (Phillip Steele, MD)
18-01	Evidence-based Prolotherapy, PRP and Stem Cell Use (Dean Reeves, MD)
18-03	Neuromusculoskeletal Pain-Lessons from the Myofascial (Brad Fullerton, MD)
17-07	Medical Ethics in Regenerative Medicine: A new era for new problems (Carlos Garcia, MD)
18-29	Using Stellate Ganglion Blocks To Treat PTSD (COL Sean Mulvaney, MD)
17-03	Discogenic Back Pain: An Orthopedic Medicine Perspective (Michael Brown, MD)
17-09	Amnion Tissues in Orthopaedic Regenerative Medicine (David Harshfield, MD)
17-02	MSK Practice (Bjorn Eek, MD)
17-13	How to Avoid Your Worst Nightmares with Spinal Prolo or PRP (Chris Centeno, MD)
17-26	The Use of Interventional Regenerative Orthopedic Medicine (IROM) in Sports Medicine (Thomas K. Bond, MD, MS)
18-31	Safeguarding Musculoskeletal Structures from Food Technologies Untoward Metabolic Effects (Ingrid Kohlstadt MD, MPH, FACN, FACPM)
18-10	MRI Diagnosis for MSK Injuries (David Harshfield, MD)
17-06	Power Reading the Shoulder MRI (David Harshfield, MD)
17-24	What's the Recipe to Help Different Connective Tissues Heal (Michael Scarpone, DO)
18-21	Interventional Orthopedics: The Present and The Future (Chris Centeno, MD)
17-08	The Fascia: Ultrasound Diagnostics (Brad Fullerton, MD)
17-14	Pharyngeal Orfascial Orthopedic Medicine: Advances in Understanding TMD (Joseph Yousefian, DMD)
17-18	Management of Chondral and Osteochondral Defects in the Knee (Alberto Gobbi, MD)
17-22	Radiological Interpretation of the Pelvis and Hips in the Orthopedic Medicine Practice (David Harshfield, MD)
18-11	Critical Labs to Order in Your Practice (Marty Gallagher, MD)
18-07	The Regenerative Medicine Orthopaedic Exam (Bjorn Eek, MD)
17-23	RMSK
18-06	Understanding the Evolution/Revolution of the Complete Regenerative Medicine Specialist (Jonathan Fenton, DO (Moderator))
18-14	Bone Marrow Aspirate Stem Cell Update (Tommy Bond, MD)
17-05	Power Reading the Lumbar Spine MRI: A guide to a better interpretation (David Harshfield, MD)
18-15	Adipose Tissue/SVF Stem Cell Update (Michael Brown, MD)
17-29	Basic Science Rationale for Current Treatment Options For Tendinopathy: Why Nothing Works All of the Time (Stephen Amoczky, DVM)
18-09	Ultrasound Diagnosis for MSK and the Fascia (Brad Fullerton, MD)
18-17	Proof Regen Med Injections Heal Soft Tissue Injuries (Brian J. Shiple, D.O., CAQSM, RMSK)
18-18	Platelet Lysate/Platelet Releasate vs PRP in Regenerative Medicine (Paul Lieber, MD)
18-19	Intradiscal Biologic Inhections (Gregory Lutz, MD)
17-10	Update and Future Perspective in Prolotherapy Research (Dean Reeves, MD)
18-20	Back to The Future: Intranasal PRP and Stem Cells (Charlie Mahl, MD)
18-22	The Business Side of Adding IROM to Your Practice-Pricing and Marketing (Carlos Garcia, MD)
18-23	Navigating IROM into Your Toolbox; Protocols, Products, Practice (Michael Brown, MD)
18-24	Applied IROM: Mastering the Basic Therapies and Techniques for IROM Success (Mayo Friedlis, MD)
18-08	Dermatomes, Myotomes and Scleotomes (Jonathan Fenton, DO)

## AAOM VIDEO LIBRARY

### WORKSHOPS - \$59

Video Name	Name
S09 Edited	Palpation Guided Injections of The Cervical Spin (T. Bond, MD)
S04 Edited	Nerve Blocks of The Upper Extremities (S. Mulvaney, MD)
Dr. K Edited	Palpation Guided Injections of the Lumbosacral Region (A. Kochan, MD)
S01 Edited	Palpation Guided Injections of The Shoulder (M. Friedlis, MD)
F06 Edited	Ultrasound Guided Injections of The Knee (B. Shiple, DO)
F08 26-08	Ultrasound Guided Injections of The Foot and Ankle (D. Harshfield, MD)
S06 Edited	Ultrasound Guided Injections of The Elbow (M. Scarpone, DO)
F04 Edited	Nerve Blocks of The Lower Extremities (S. Mulvaney, MD)
S07 Edited	Ultrasound Guided Injections of The Wrist and Hand (J. Fenton, DO)
S02-03 Edited	Palpation Guided Injections of The Elbow, Wrist and Hand (W. Burad, MD)
F01 Edited	Palpation Guided Injections of the Lumbosacral Region (B. Eek, MD)
F02 Edited	Palpation Guided Injections of the Hip (J. Fenton, DO)
F07 Edited	Palpation Guided Injections of The Foot and Ankle (M. Scarpone, DO)
S05 Edited	Ultrasound Guided Injections of The Shoulder (B. Shiple, DO)
F05 Edited	Palpation Guided Injections of The Knee (M. Friedlis, MD)
F09 26-08	Fluoroscopic Guided Injections of The Hip, Knee and Ankle (P. Lieber, MD)
S08 26-08	Safe Fluoroscopic Operating Procedures and Orthogram Creation (D. Harshfield, MD)

### FULL COLLECTIONS \$595

VIDEO NAME	
2017 Full	2017 Annual Conference Full General Session
2016 Full	2016 Annual Conference Full General Session
2017 WS	2017 Annual Workshop
2018 Full	2018 Annual Conference Full General Session
2019 Full	2019 Annual Conference Full General Session

## AAOM VIDEO LIBRARY

### PACKAGES/SPECIAL INTEREST - \$99

NAME	NAME
PKG01	A Case Study in Upper Cervical Instability (Brad Fullerton, MD & David Harshfield, MD) / Treating Cranio-Cervical Junction (CCJ) Instability (Chris Centeno, MD)
PKG02	The Effects of Hormones on Fat Mass, Body Composition and Insulin Resistance in Men and Women (Neal Rouzier, MD) / Anti-Aging Medicine (Neil Rouzier, MD)
PKG03	Intra-operative Rotator Cuff Repair using PRP and Adipose in the Canine Model an RCT (Sherman Canapp, DVM) / Is there evidence in animal models for translational research utilizing regenerative medicine principles? Animals to humans, a veterinarian orthopedic surgical perspective. (Sherman Canapp, DVM)
PKG04	Equine Orthopaedics (Wayne McIlwraith, PhD) / A Role for Mechanobiology in the Etiopathogenesis of Tendinopathy: Lessons Learned from Humans and Horses (Steven Arnoczky, DVM)
PKG05	Aesthetic and Sexual Applications of Regenerative Cellular Medicine (Charles Runels, MD) / The Selective Functional Movement Assessment (Gray Cook)
PKG06	Facial Nerve Repair - Advances In Nerve Regeneration (Victor Ibrahim, MD) / Ultrasound Guided Hydrodissection (HD) of Peripheral Nerves (Stanley KH Lam, MBBS, MScSEM, MScSM&HS, PGDipMSM, RMSK)
PKG07	The Orthopaedic Exam and Diagnosis (Tommy Bond, MD (Moderator)) / Cases in Regenerative Orthopaedic Medicine: Moderator: M. Brown
PKG08	Scientific Evidence of Regenerative/Stem Cell Therapies for Orthopaedic Conditions (Jay E. Bowen, DO) / Regenerative Medicine..... A Model for Optimal Health and Healing (Joel Baumgartner, MD)
PKG09	The Players - What Improves IROM Success (Tommy Bond, MD (Moderator)) / The Saboteurs - What Impairs IROM Success (Charles Mahl MD (Moderator))
PKG10	Bio-Cellular Spine Interventions (Carlos J. Garcia MD) / Using Platelet Lysate to Treat Lumbar Radiculopathy (Chris Centeno, MD)
PKG11	New Stem Cell Treatments on the Horizon (Dr. Michael Brown, MD) / Mesenchymal Stem Cells and Their Therapeutic Efficacy (Arnold I Caplan, PhD)
PKG12	The Layering Effect; How Regenerative Medicine Can Improve Outcomes of Traditional Interventional Spine Care (Paul Lieber, MD) / Regenerative Orthopedic Medicine: The Integration of Orthopedic Medicine & Orthopedic Surgery (Brian Shiple, DO, Victor Kalman, DO)
PKG13	Biotensegrity and It's Practice Implications (Bradley D. Fullerton, MD) / The Luftogt Perineural Injection Treatment (John Lyftogt, MD)
PKG14	Aesthetic and Sexual Applications of Regenerative Cellular Medicine (Charles Runnels, MD) / Understanding Pain and Inflammation Associated with High Levels of FAC and Potential Tx with Alpha-2-Macroglobulin (2am) (Gaetano Scuderi, MD)
PKG15	Fascia and It's Practice Implications (Thomas W. Findley, MD, PhD) / Hijacking the Immune System: A Faster Way to Heal (Darrin D' Agostino, DO, MPH, MBA)
PKG16	A Biological Problem Demands a Biological Solution: Phytochemicals Optimizing the Biochemical Environmental Factor in Joint Injury and Disease (Lanny Johnson, MD) / Use of Placental Tissue for Orthopedic Injuries: Potentials and Pitfalls (Dan Kuebler, PhD)
PKG17	The Effects of Stem Cell Treatments on Venous Failure (Donald Voelker, MD & David L. Harshfield Jr., MD, MS) / Scaffolding: An Update in Ortho Biologics (Michael Scarpone, DO)
PKG18	Barriers to Musculoskeletal Healing (Janine Talty, DO, MPH) / Helping Doctors Make Science-Based Decisions About Marketed Regenerative Medicine Products (Mary Pat Moyer, PhD)
PKG19	Quality Control for Regenerative Medicine Basic Lab Science by Dan Kuebler, PhD & Regenerative Medicine Research Update by Dr. Chris Centeno
